

Introduction to Map Dowsing

The purpose of map dowsing is to have a *visual representation of a complete space*, floorplan or estate to tap-in to the *physical and etheric properties*. Ultimately, the goal is to recognise aspects of the space that are non-beneficial and transmute or shift those aspects to *create harmony and an elevated energetic quality for all to enjoy*. For the beginner dowser, however, map dowsing usually involves more of a “hide & seek” practice in order to increase dowsing skills and confidence prior to taking on the responsibility of space-clearing or psychopomp work. For beginner dowsers, it is recommended to ask questions using your map that can be easily obtained or double-checked by a non-dowsing method. With repeated practice, your dowsing skill and confidence will increase. Happy Dowsing!

Basic Map Dowsing Protocol

- i) Perform a **self-clearing** using a pendulum or other method (i.e. smudging) and enter your **expanded state** by turning up your personal light energy and increasing the scope of your heart centre (aka “Zero Point”).
- ii) Decide upon your **intent** for map dowsing. If you are simply practicing your dowsing skills, you must still have an intent. What, specifically, are you aiming to do in this session? *If you do not get a “yes” for all 3 P’s in the next step, you may need to revise your intent.*
- iii) Go through the 3 P’s process: **Permission, Protection, and Partnership**.
 - a. **Permission** → to tap-in to the space represented by your map
 - i. Can I?
 - ii. May I?
 - iii. Should I?

All 3 must be YES in order to proceed.
 - b. **Protection** → call-in any **beneficial beings to assist you** in this practice and ensure that you are **safe**. With practice, each dowser becomes more familiar with which energies or beings to summon as helpers. Sometimes this will vary depending upon the intent.
 - i. Examples include: Ancestors, Descendants, Guides, Guardian Angels, Archangels, Ascended Masters, Fairies, Animal Spirits, etc...
 - c. **Partnership** → Nature is your co-creative partner. Call upon the Devas & Deities of the space in which you are dowsing. This applies to where you are in physical space as well as the target space represented by your map (if they are different). *Once you reach a more intermediate-advanced level of dowsing, this step will become absolutely crucial in accomplishing any intent involving space-clearing or obtaining detailed information.*
- iv) **Express gratitude** for every result that comes, even if it may be inaccurate. *Remember that in practicing dowsing as a beginner, the point is not to achieve the “correct” answer right away, but rather train yourself in asking more accurate questions and recognizing when your dowsing tool produces a response.*

*Gratitude
is the best
